E. SESSION SUMMARY:

The target is a flat, hard surface road with many moving vehicles. One vehicle of interest is a large bus that is moving down on a slight incline. There are people in the back of it, possibly children, looking out of the window and scanning the area. The driver is a stocky man with brown hair and a mustache.

There are various shapes in the target area. There are rounded shapes, people shapes, and one long, narrow, shiny shape. Most of these shapes seem to be natural structures, not man-made. The main color seems to be green.
